| from October 2022 to present.

Dr. Davide Cavaliere is board-certified general surgeon, his clinical focus is digestive surgery and abdominal wall reconstruction. He has extensive expertise in the surgical management of digestive malignancies, particularly gastric and colorectal cancer, and in the treatment of complex hernia and abdominal wall defects, combining advanced reconstructive strategies with minimally invasive approaches supported by innovative techniques and state-of-the-art technologies. He actively promotes modern perioperative pathways, including prehabilitation, enhanced recovery programs, and early discharge after major surgery. He is also strongly committed to education, mentoring, and proctoring, and to the development of structured training programs in robotic and advanced surgery.
